VFW Department of Nebraska

Web Site Project Status

As of 2-12-14

- The Department of Nebraska (http://myvfw.org/nebraska/), all Nebraska posts and districts have a new web site. (Completed)
- You can access all posts and district web sites by accessing the Department of Nebraska (http://myvfw.org/nebraska/) web site, in the navigation at the top of the home page, place curser over department, select "department of Nebraska directories" from the drop down menu, and select from the choice – post or district. (Completed)
- Select a person from your post or district that has a computer and internet access that would become the webmaster (makes changes, additions or deletions to your web site). You may want to use someone that has the ability to be webmaster (one person) from your Post members, Ladies Auxiliary or outside of the VFW, depending on your commander's approval. Claim your post or district web site by accessing the on-line form located on the new Department of NE home page (http://myvfw.org/nebraska/, below the commander's picture stating "*Join the VFW NE Network - Claim Your VFW NE Post or District Website*". Fill out the on-line form and submit. (Completed)
- When we have a list of post and district webmaster's from the "Join the VFW NE Network - Claim Your VFW NE Post or District Website" form, we will schedule hands-on training sessions to personalize your web site. You will learn how to make changes, additions, or deletions, and maintain your web site. You will be working on your own web site during this hands-on training session. Bring a laptop computer that has wireless network access or we will have a limited amount of laptops available for use. We are planning to have training (possibly multiple sessions) in Omaha and Ogallala to serve the eastern and western Nebraska posts and districts. Stay tuned for announcements of dates, times, locations. Offer posted on Dept. of NE web site
