

# Setting up StatCounter

Setup StatCounter Account <http://statcounter.com/sign-up/>

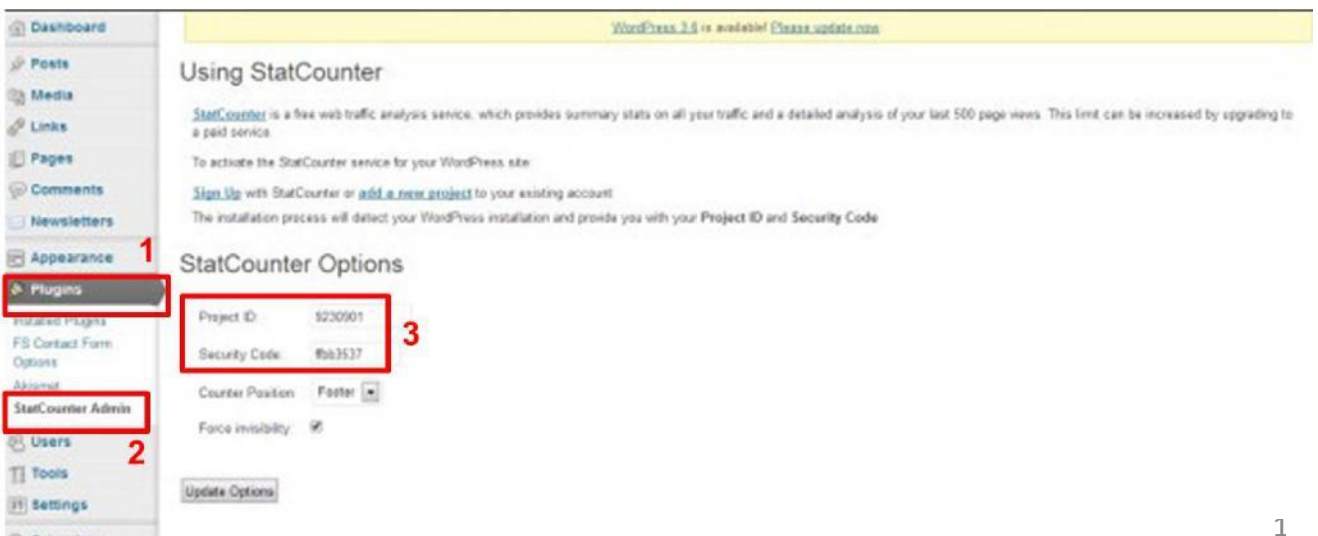

When you setup your StatCounter Account you will receive an email with code to place into you WordPress Dashboard

Login to your site dashboard

Go to the left side to the Plugins (1)

In the plugins section, select Statcounter Admin (2)

## Select StatCounter Options (3) (**example** number below)

- For **project id**, go to the code in your email and find this line: var sc\_project=1234567; copy and paste the **1234567** into the box.
- For **security code**, find this line var sc\_security="ffbb1234" and copy in the ffbb1234 portion into the box.
- Leave the next box as Footer and check the Force invisibility box. Save and you are all set.

**Example** code for website (this will be in your email from StatCounter)

```
#####
```

```
<!-- Start of StatCounter Code for WordPress (either .com or .org) -->
```

```
<script type="text/javascript">
```

```
var sc_project=1234567;
```

```
var sc_invisible=1;
```

```
var sc_security="ffbb1234";
```

```
var scJsHost = (("https:" == document.location.protocol) ?
```

```
"https://secure." : "http://www."/);
```

```
document.write("<sc"+"ript type='text/javascript' src='" + scJsHost+  
"statcounter.com/counter/counter.js"'></"+"script">");
```

```
</script>
```

```
<noscript><div class="statcounter"><a title="web statistics"
```

```
href="http://statcounter.com/free-web-stats/" target="_blank"></a></div></noscript>
```

```
<!-- End of StatCounter Code for WordPress (either .com or .org) -->
```

```
