Enter information

Select "add account" when information is entered.

Select Wordpress (other installation guides)

Select check installation

Additional information, nothing to do here

Select “check information”

Select your post website for tracking reports

The screenshot shows the StatCounter dashboard for a user named 'vfwpost1581'. The interface includes a sidebar with navigation options like 'Posts', 'Media', and 'Settings'. The main content area displays a 'No hits recorded yet!' message with a yellow background, indicating that no data has been recorded for the website 'http://www.vfwpost1581.org'. A red box highlights the 'Check Installation' button. Below the message, there is a section for 'Blocking your own visits' and a table showing 'Pageloads' and 'Visits' for the website 'vfwpost1581.org' across different time periods (Today, Yesterday, This Month, Total). The table shows zero hits for all periods.

	Today	Yesterday	This Month	Total	Settings
vfwpost1581.org	0	0	0	0	

Once you have entered your login and password, select the “stay logged in” so that you can automatically go to StatCounter the next time.
